

Flink Learning

Flink Bilingual Literacy

Flink Bilingual Literacy is a comprehensive early Literacy program for K-2 students in Dual Language, Bilingual and ESL programs. It enables students to access the same activities in both English and Spanish: e-Books, instructional games and story-writing.

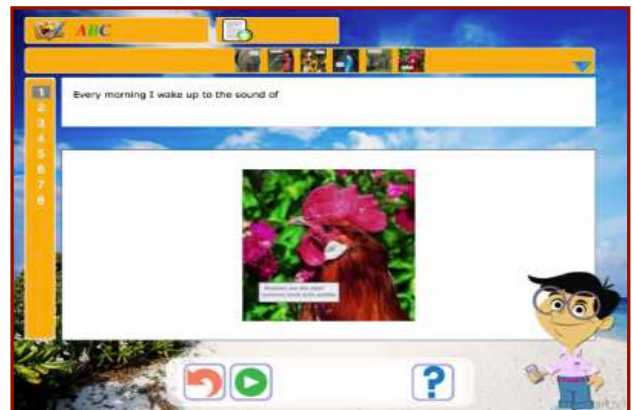

Six Components of Literacy

Current research has concluded that all successful literacy programs are comprised of six components:

1. **Phonemic Awareness** – an understanding of sounds in language and how they form words,
2. **Decoding** – ability to figure out unfamiliar words and learn to read them automatically,
3. **Fluency** – ability to read quickly and without conscious attention,
4. **Comprehension** – ability to understand the meaning, implications and intention of text,
5. **Writing** – ability to express thoughts in written sentences and paragraphs, and
6. **Vocabulary** – know an adequate number of words to understand text passages.

Benefits of Flink Bilingual Literacy

- *Flink Bilingual Literacy* is student-centered, empowering students to choose learning activities at whatever level is comfortable.
- Learners monitor their progress with graphical reports for the skills and words they master.
- *Flink Bilingual Literacy* includes hundreds of eBooks, covering a variety of culturally familiar and interesting subjects. Both fiction and expository text are included, each with a variety of comprehension questions.
- *Flink Bilingual Literacy* has over 1,500 graphically-appealing, engaging learning activities.
- *Flink Bilingual Literacy* has been designed for use by teams to motivate learners.
- *Flink Bilingual Literacy* comes online and on low cost tablets for locations lacking computers.
